# Risk Management – Cricket Australia National Club Risk Protection Programme

Risk Management is one of the most important things you do everyday. Wearing a seatbelt or checking the grounds before a game are all forms of risk management.

All clubs must take risks. Risk management is about deciding which risks to take and how to manage their outcomes. Good risk management means quality assurance for your players, coaches, spectators and volunteers.

## Managing risk does not mean avoiding risk

- Risk Management helps you to identify, prioritise and address risks that will affect your club's future.
- Risk Management is an ongoing process.
- It shouldn't be a "task" that starts and ends.
- Most people associate risk with negative or dangerous situations. But risks can be both positive and negative.
- In most cases, risks are obvious, foreseeable and real that will have an effect on your club's future.

## Example categories of risk

- Safety of people.
- Financial risks.
- Legal and statutory compliance.
- Image and reputation.
- Safety of property and facilities.

## Risk Management should be EASY

- Keep it simple – Identify REAL risks.
- Communicate openly and often – Involve others in the process – Be PROACTIVE – Not REACTIVE.
